

HRV103A

Silicon Schottky Barrier Diode for Rectifying

REJ03G0398-0100

Rev.1.00

Oct 12, 2004

Features

- Low forward voltage drop and suitable for high efficiency rectifying.
- Thin Ultra small Resin Package (TURP) is suitable for high density surface mounting and high speed assembly.

Ordering Information

Type No.	Laser Mark	Package Code
HRV103A	S1	TURP

Pin Arrangement

Absolute Maximum Ratings

(Ta = 25°C)

Item	Symbol	Value	Unit
Repetitive peak reverse voltage	V_{RRM}	30	V
Reverse voltage	V_R	30	V
Average rectified current	I_O^{*2}	1	A
Non-Repetitive peak forward surge current	I_{FSM}^{*1}	5	A
Junction temperature	T_J	125	°C
Storage temperature	T_{stg}	-55 to +125	°C

Notes: 1. 10ms sine wave 1 pulse

2. Ta = 44°C, With Ceramics board (board size: 50mm × 50 mm, Land size 2mm × 2 mm)
Short form wave (θ180°C), VR = 10 V.

Electrical Characteristics

(Ta = 25°C)

Item	Symbol	Min	Typ	Max	Unit	Test Condition
Forward voltage	V_{F1}	—	—	0.27	V	$I_F = 100 \text{ mA}$
	V_{F2}	—	—	0.36		$I_F = 700 \text{ mA}$
	V_{F3}	—	—	0.42		$I_F = 1 \text{ A}$
Reverse current	I_{R1}	—	—	100	μA	$V_R = 5 \text{ V}$
	I_{R2}	—	—	1000		$V_R = 30 \text{ V}$
Capacitance	C	—	—	40	pF	$V_R = 10 \text{ V}$, $f = 1 \text{ MHz}$
Thermal resistance	Rth(j-a)	—	100	—	°C/W	Ceramics board ^{*1}
		—	200			Glass epoxy board ^{*2}

Notes: 1. Ceramics board

2. Glass epoxy board

3. TURP is the structure which radiates heat to a substrate, please perform mounting to a substrate by reflow.

Main Characteristics

Fig.2 Reverse current vs. Reverse voltage

Fig.3 Capacitance vs. Reverse voltage

Fig.4 Forward power dissipation vs. Forward current

Fig.5 Reverse power dissipation vs. Reverse voltage

Fig.6 Average rectified current vs. Ambient temperature

Package Dimensions

Unit: mm

Package Code	TURP
JEDEC	—
JEITA	—
Mass (reference value)	0.004 g

Renesas Technology Corp. Sales Strategic Planning Div. Nippon Bldg., 2-6-2, Ohte-machi, Chiyoda-ku, Tokyo 100-0004, Japan

Keep safety first in your circuit designs!

1. Renesas Technology Corp. puts the maximum effort into making semiconductor products better and more reliable, but there is always the possibility that trouble may occur with them. Trouble with semiconductors may lead to personal injury, fire or property damage.
Remember to give due consideration to safety when making your circuit designs, with appropriate measures such as (i) placement of substitutive, auxiliary circuits, (ii) use of nonflammable material or (iii) prevention against any malfunction or mishap.

Notes regarding these materials

1. These materials are intended as a reference to assist our customers in the selection of the Renesas Technology Corp. product best suited to the customer's application; they do not convey any license under any intellectual property rights, or any other rights, belonging to Renesas Technology Corp. or a third party.
2. Renesas Technology Corp. assumes no responsibility for any damage, or infringement of any third-party's rights, originating in the use of any product data, diagrams, charts, programs, algorithms, or circuit application examples contained in these materials.
3. All information contained in these materials, including product data, diagrams, charts, programs and algorithms represents information on products at the time of publication of these materials, and are subject to change by Renesas Technology Corp. without notice due to product improvements or other reasons. It is therefore recommended that customers contact Renesas Technology Corp. or an authorized Renesas Technology Corp. product distributor for the latest product information before purchasing a product listed herein.
The information described here may contain technical inaccuracies or typographical errors.
Renesas Technology Corp. assumes no responsibility for any damage, liability, or other loss rising from these inaccuracies or errors.
Please also pay attention to information published by Renesas Technology Corp. by various means, including the Renesas Technology Corp. Semiconductor home page (<http://www.renesas.com>).
4. When using any or all of the information contained in these materials, including product data, diagrams, charts, programs, and algorithms, please be sure to evaluate all information as a total system before making a final decision on the applicability of the information and products. Renesas Technology Corp. assumes no responsibility for any damage, liability or other loss resulting from the information contained herein.
5. Renesas Technology Corp. semiconductors are not designed or manufactured for use in a device or system that is used under circumstances in which human life is potentially at stake. Please contact Renesas Technology Corp. or an authorized Renesas Technology Corp. product distributor when considering the use of a product contained herein for any specific purposes, such as apparatus or systems for transportation, vehicular, medical, aerospace, nuclear, or undersea repeater use.
6. The prior written approval of Renesas Technology Corp. is necessary to reprint or reproduce in whole or in part these materials.
7. If these products or technologies are subject to the Japanese export control restrictions, they must be exported under a license from the Japanese government and cannot be imported into a country other than the approved destination.
Any diversion or reexport contrary to the export control laws and regulations of Japan and/or the country of destination is prohibited.
8. Please contact Renesas Technology Corp. for further details on these materials or the products contained therein.
