

SFH6106 SFH6156 SFH6186 SFH6206 SFH6286

5.3 kV TRIOS® High Reliability Optocouplers

FEATURES

- SMD Versions of SFH610, 615, 618, 620, 628
- Available on Tape and Reel
—To Order Use Suffix “T”
- Field Effect Stable by TRIOS (TRansparent IO n Shield)
-  VDE 0884 Available with Option 1
- U.L. Approval, File #E52744

DESCRIPTION

The SFH6106, 6116, 6156, 6186, 6206, 6286 families of optocouplers are lead bent for SMD applications. They are electrically equivalent to the SFH610, 615, 618, 620, and 628 families of optocouplers.
